International Journal of Industrial Ergonomics, 7 (1991) 361–363
Elsevier

Contents volume 7

Vol. 7, No. 1 (January 1991)

Evaluating the heat stress indices recommended by ISO,
H. Peters (Darmstadt, Germany) 1
Stress, job control and other job elements: A study of office workers,
P.C. Sainfort (Madison, WI, U.S.A.) 11
Subjective assessment of lift postures in adult Koli females working at construction sites,
M. Mittal and S.L. Malik (Delhi, India) 25
Biomechanical analysis of raking and comparison of two rakes,
S. Kumar and C. Cheng (Edmonton, Alberta, Canada) 31
Whole-body vibration: A comparison of different methods for the evaluation of mechanical shocks,
B.-O. Wikström, A. Kjellberg and M. Dallner (Solna, Sweden) 41
Effect of body posture on isometric torque-producing capability of the back,
S. Kumar, R.M. Dufresne and D. Garand (Edmonton, Alberta, Canada) 53

Case study
Rotating-shift system vs. fixed-shift system
Tian-shy Liou and Mao-jiun Wang (Hsin-Chu, Taiwan, R.O.C.) 63

Short communication
A new finger strength (pinch) gage,
F.A. Fathallah, K.H.E. Kroemer and R.L. Waldron (Blacksburg, VA, U.S.A.) 71

Technical note
A note on computer analysis of a thermocouple-based respiration signal for assessing human–computer interactive task performance,
J. Sharit, V. Viswanathan and S.J. Czaja (Amherst, NY, U.S.A.) 73

Guidelines
Work clothing,
R. Nielsen (Lyngby, Denmark) 77

Book reviews 87

Announcements 91

Vol. 7, No. 2 (March 1991)

Perception of two-dimensional shapes using haptic feedback
M. Driels (Monterey, CA, U.S.A.) and H. Spain (Kailua, HI, U.S.A.) 93
Short and long-term effects of a training programme on work postures in rehabilitees: A pilot study of loggers suffering from back troubles,
S. Värynen (Oulu, Finland) and U. Könönen (Kuopio, Finland) 103
Integration of workstation, job, and team structure design in complex human–machine systems: A framework
N. Meshkati (Los Angeles, CA, U.S.A.) 111
Muscle force, endurance and neck-shoulder symptoms of sedentary workers,
E.-P. Takala and E. Viikari-Juntura (Helsinki, Finland) 123

Review article
Optimizing sensation and perception in older adults
F. Schieber (Rochester, MI, U.S.A.), J.L. Fozard (Baltimore, MD, U.S.A.), S. Gordon-Salant (College Park, MD, U.S.A.) and J.M. Weiffenbach (Bethesda, MD, U.S.A.) 133

Case study
Comparison of the work activity of two mechanics: A woman and a man,
J. Courville, N. Vézina and K. Messing (Montréal, Canada) 163

Guidelines
Robotic system safety,
F. Tayyari (Peoria, IL, U.S.A.) and H.R. Parsaei (Louisville, NY, U.S.A.) 175

Focus
The role of ergonomics in Sweden as opposed to the U.S.
A. Freivalds (University Park, PA, U.S.A.) and J. Eklund (Linkoping, Sweden) 181

Announcements 183

Erratum 184

Vol. 7, No. 3 (May 1991)

Special Issue: Posture and Seating
Preface
M.G. Helander 185
Transitioning advanced interface technology from aerospace to manufacturing applications
W.B. Rouse and R.M. Hunt (Norcross, GA, U.S.A.) 187
MANPRINT implications for product design and manufacture,
H.R. Booher (Washington, DC, U.S.A.) 197
A field study of productivity improvements in the manufacturing of circuit boards
G.J. Burri, Jr. (Boulder, CO, U.S.A.) and M.G. Helander (Buffalo, NY, U.S.A.) 207
Building physical and mental models in assembly tasks,
P. Baggett (Ann Arbor, MI, U.S.A.) and A. Ehrenfeucht (Boulder, CO, U.S.A.) 217
The effect of simulated accident on worker safety behavior around industrial robots
W. Karwowski (Louisville, KY, U.S.A.), M. Rahimi (Los Angeles, CA, U.S.A.), H. Parsaei, B.R. Amarnath and N. Pongpatanasuegsa (Louisville, KY, U.S.A.) 229

Regular paper
Prerequisites for alternative working hours in an FMS,
S. Börjesson (Göteborg, Sweden) 241

Announcements 275

Vol. 7, No. 4 (July 1991)

Toward a reliable safety sensor implementation for industrial automation,
D.L. Millard (Troy, NY, U.S.A.) 277
Prediction of slip resistance in climbing systems
J.M. Miller (Ann Arbor, MI, U.S.A.), M.R. Lehto (West Lafayette, IN, U.S.A.) and T.P. Rhoades (Ann Arbor, MI, U.S.A.) 287
A psychophysical study of manual lifting in hot environments
H.A. Hafez (Cairo, Egypt) and M.M. Ayoub (Lubbock, TX, U.S.A.) 303
The visual detectability analysis associate
T.H. Haverda (Dallas, TX, U.S.A.), N.C. Ellis (College Station, TX, U.S.A.), D.B. Simmons (College Station, TX, U.S.A.) . 311
An algorithm for shift scheduling which considers circadian principles,
M.M. Kostreva, P. Genevier, and K.S.B. Jennings (Clemson, SC, U.S.A.) 317
Strength and range of motion of females with carpal tunnel syndrome
J.E. Fernandez (Wichita, KS, U.S.A.) 323
A three-dimensional static torso model for the six human lumbar joints,
C. Cheng and S. Kumar (Edmonton, Alberta, Canada) 327

Case studies
Impacts of leisure activity noise levels on safety procedures and policy in the industrial environment
P.J. Brown and R.D. Yearout (Asheville, NC, U.S.A.) 341
Evaluating the mechanical injury problem in the wood-bamboo furniture manufacturing industry
Wen-Shung A. Ma, Mao-Jiun J. Wang and Frank S. Chou (Hsinchu, Taiwan, ROC) 347

Book review 357
